

Drug and Alcohol Abuse Prevention Program and the Drug-Free Workplace and Campus Program

Reviewed/Revised: August 1, 2024

Standards of Conduct

University policy strictly prohibits the unlawful manufacture, sale, delivery, possession, use and distribution of alcohol and illicit drugs on University property and during University activities off campus. Violations will result in discipline including possible dismissal from the University. This policy is necessary to support the University's mission of supporting students' efforts to achieve their academic goals, by providing a healthy environment for them and for faculty, staff, and guests. The following information explains the reasoning behind this policy and is provided in compliance with regulations implementing the Drug-Free Schools and Communities Act of 1989.

Effects of Drugs and Alcohol

Although individuals often use drugs and alcohol to achieve a variety of effects on mind and body that are found to be temporarily useful or pleasurable, drugs can be highly addictive and injurious. A person can pay a price in terms of his or her physical, emotional, and social health.

This price can be paid in a number of ways. Drug and alcohol use are often associated with increased health risks, risks of violence, and legal and economic difficulties. The risk of contracting sexually transmitted diseases, including AIDS, is increased through unwanted or unprotected sex when one is under the influence of drugs or alcohol. Drug and alcohol use can inhibit emotional regulation leading to violent actions. Involvement in the sale and purchase of illegal drugs can also be the trigger for violent crime. Additionally, chemical dependence often leads to economic and legal problems. The dependence, illness, loss of job, and loss of family or friends that can result from drug or alcohol use and abuse can be tragic.

In keeping with the mission of Westcliff University and Western State College of Law to provide a safe and healthy educational environment along with the requirements of state and federal law, Westcliff University and Western State College of Law have adopted this program to inform the campus community of school and legal penalties and health risks associated with alcohol and drug use as well as resources for individuals in need of support.

Penalties and Sanctions:

Westcliff University and Western State College of Law School Sanctions

Any member of the Westcliff University community found in violation of the drug and alcohol policy shall be subject to discipline on a case-by-case basis. Students in violation of drug and alcohol policies governed by Westcliff University and Western State College of Law and local, State, and Federal laws will be subjected to disciplinary action (including possible dismissal) and applicable legal sanctions. In the event of an alleged involvement in a criminal drug- or alcohol-related offense, his or her case may also be referred to appropriate law enforcement

officials for investigation and prosecution. A student may be subject to disciplinary action up to and including dismissal for failure to comply with the university's policies or established practices. The university, at its discretion, may require a student to participate satisfactorily in a drug and/or alcohol abuse assistance or rehabilitation program approved for such purposes by a Federal State or local health, law enforcement, or designated agency. For additional information review the school catalog.

The Student Affairs Department oversees the enforcement of the conduct policy for students at Westcliff University. The Associate Dean for Academic Affairs and the Honor Code Committee oversee the enforcement of the Honor Code for the College of Law.

As an at-will employer, the University may impose discipline whenever it determines it is necessary or appropriate. Discipline may take various forms, including verbal warnings, email or written documented warnings, performance and development review, performance improvement plan, suspension, demotion, transfer, reassignment or termination. The discipline imposed will depend on the circumstances of each case; therefore, discipline will not necessarily be imposed in any particular sequence.

Moreover, at any time the University determines it is appropriate, an employee may be discharged immediately and in the event of an alleged involvement in a criminal drug- or alcohol-related offense, the case may also be referred to appropriate law enforcement officials for investigation and prosecution.

Human Resources oversees the enforcement of the conduct policy for all University employees.

Local Sanctions:

Proposed legal sanctions for local alcohol and other drug violations are decided by the court and filing district or city attorney. Sanctions may include fines, community service, incarceration, and more. A searchable municipal code library is provided by [American Legal Publishing](#)

Santa Monica Campus:

Sec 63.46 of the Los Angeles Municipal Code designates all beach areas bordering the Pacific Ocean, from Santa Monica City limits to the El Segundo City limits, which are owned, leased to, managed or controlled by the city as designated "drug-free zones."

Sec 41.27 of the Los Angeles Municipal Code prohibits public intoxication.

State Sanctions

State Sanctions - California

California state laws and regulations regarding alcoholic beverages are found in the California State Constitution, the California State Business and Professional Code, and the California State Penal Code. Violations of these laws and regulations are punishable by fines and imprisonment. Where vehicles are involved, violations may be additionally punishable by loss of driving privileges.

The following is not a comprehensive list of statutes and penalties. The full text of these state laws and their associated penalties can be found in the [code search section of the California Legislative Information website](#).

The following state codes specifically pertain to unlawful possession and use of illicit drugs and alcohol:

California Business and Professions Code:

[DIVISION 9 Alcoholic Beverages 23000-25762](#)

Provides definitions of alcohol, alcohol products, and related terms

[Chapter 16 Regulatory Provisions; Article 1 In General 25062](#)

Prohibits selling, furnishing, or giving alcohol to intoxicated individuals and minors. Violations can result in a misdemeanor.

[Chapter 16 Regulatory Provisions: Article 3 Women and Minors 25657-25668](#)

Prohibits selling, furnishing, giving, or otherwise distributing an alcoholic beverage to any person under the age of 21. Violations can result in a misdemeanor with a fine of \$1,000 and community service.

If consumption of alcohol by a minor (under 21 years of age) results in great bodily injury or death, the person who provided the alcohol can be subject to a fine of \$3,000 and up to 1 year in prison.

If a minor (under 21 years of age) attempts to purchase an alcoholic beverage, they may be fined up to \$250 dollars and subject to community services. Additional violations can result in higher fines and terms of community service.

Minors (under 21 years of age) in possession of an alcoholic beverage in a public place or any place open to the public can be found guilty of a misdemeanor, fined up to \$250 dollars and subject to community service.

California Civil Code:

[Division 3 Obligations, Part 3, 1714 a-d](#)

An person who provides alcoholic beverages to someone who is already intoxicated, or to a minor under 21 years of age can be held accountable for injuries caused to another person by the intoxicated individual if intoxication is found to be the proximate cause of the injuries.

California Health and Safety Code:

[Division 10 Uniform Controlled Substances Act](#)

[Chapter 1: General Provisions and Definitions 11000-11033](#)

Provides definitions of "controlled substances", "drug", "drug paraphernalia" and other terms associated with sanctions for drug use and distribution.

[Chapter 2: Standards and Schedules: 11053-11058](#)

Provides a list of controlled substances categorized by the substance's acceptable medical use and abuse or dependence potential. Penalties for use, possession, and distribution are often associated with the schedule of the substance with schedule 1 substances allowing for the most severe penalties due to limited acceptable medical use and high levels of abuse potential.

[Chapter 6: Offenses and Penalties: 11350-11392](#)

Provides information about offenses and penalties for specific substances including:

[Ch.6 Article 1: Offenses Involving Controlled Substances Formerly Classified as Narcotics: 11350-11356.5](#)

Provides information about penalties for possession of controlled substances without prescriptions and/or with specific criminal intentions. Penalties range from fines and community service to imprisonment.

Fines generally range from \$1,000- \$50,000 depending on the severity of the circumstance and prison time generally ranges from under 1 year- 9 years depending on the offense.

Multiple offenses and combinations of offenses can result in increased fines, prison time or both.

[Ch.6 Article 2: Cannabis 11357-11362.9](#)

Provides information about penalties for unlawful possession, use, and distribution of cannabis in California.

Individuals under the age of 21 are prohibited from using or possessing cannabis or cannabis products, there are limitations to where cannabis can be smoked or ingested in public.

Unlawful possession of cannabis is punishable by fines (generally no more than \$100 or for certain infractions \$250), mandated drug education and counseling programs, and/ or community service.

Federal laws prohibit the possession, use, and distribution of cannabis (see Federal Sanctions section for more information)

[Ch.6 Article 4: Miscellaneous Offenses and Provisions: 11364-11376.6](#)

Describes prohibitions on possession, use, and distribution of drug paraphernalia and other actions related to drug use. Penalties can include forfeiture, fines, and imprisonment depending on the severity of the circumstance.

Health Risks:

Health Risks Associated with the Use of Alcohol

Short Term Risks:

- Increased risks of accidents and injuries
- Alcohol-related traffic accidents (the leading cause of death for teens)
- Slower reaction time, decreased muscle coordination, and impaired vision
- Fatal overdose
- Unconsciousness or blackout
- Death by aspiration of vomit
- Nausea
- Gastritis

Long-Term Risks:

- Increased blood pressure
- Increased risk of heart attack
- Brain damage resulting in permanent psychosis
- Cancer of the mouth, esophagus or stomach
- Liver damage (cirrhosis, alcohol hepatitis, cancer)
- Ulcers and Gastritis
- Pancreatitis
- Birth defects
- In males--testicular atrophy and breast enlargement
- In females--increased risk of breast cancer
- Prolonged, excessive drinking can shorten life span by ten to twelve years

Health Risks Associated with the Use of Drugs

Amphetamines (Speed, Uppers):

- Malnutrition
- Hallucinations, mood swings and panic attacks
- Dental problems
- Cardiovascular problems
- Dependence, psychological and sometimes physical

Deliriums (Aerosols, Lighter Fluid, Paint Thinner):

- Permanent damage to lungs, brain, liver, bone marrow
- Loss of coordination, confusion, hallucinations
- Overdose causing convulsions, death

Depressants (Barbiturates, Tranquilizers, Methaqualone):

- Confusion, depression, loss of coordination
- Dependence, physical and psychological
- Coma, death (caused by overdose)
- Can be lethal when combined with alcohol

Hallucinogens (LSD, PCP, DMT, STP, Mescaline):

- Hallucinations, panic, irrational behaviors (which can lead to increased risk of accidents, injuries)
- Tolerance overdose leading to convulsions, coma, death
- Possible birth defects in children of LSD users

Intravenous Drug Use:

- Places one at risk for HIV infection (the virus causing AIDS) when needles are shared
- Skin infections, abscesses, and skin ulcers
- Vein collapse
- Increased risk of overdose

Marijuana and Hashish:

- Chronic bronchitis
- Decreased vital capacity
- Increased risk of lung cancer
- In men lower levels of testosterone and increase in abnormal sperm count

Stimulants (Cocaine):

- Painful nosebleeds and nasal erosion
- Intense "downs" that result in physical and/or emotional discomfort
- Tolerance and physical dependence can develop

Narcotics (Heroin, Morphine, Codeine, Opium):

- Malnutrition
- Hepatitis

Following is a listing of classic danger signals that may indicate the presence of a drug or alcohol problem:

- abrupt changes in mood or attitude
- decreased efficiency at work or at school
- frequent absences, tardiness, and/or early departures
- relationship problems with family, friends, and co-workers
- unusual outbursts of anger and hostility
- social withdrawal

Counseling

If you observe any of these changes in yourself or another student, you are encouraged to talk with the psychologist/counselor for confidential counseling.

Both Westcliff University and Western State College of Law use the services of a third-party counseling services to provide confidential professional counseling. The counselor may also refer a student for limited visits with an area network mental health provider or assist the student with locating resources within the community.

As a matter of policy, the counselor is encouraged; if and when deemed appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary, confidential basis, for inclusion into the annual crime statistics.

Westcliff University students can receive counseling through Impact Counseling, by calling **(866) 780-0855**.

Western State College of Law students can receive counseling through the Orange County Relationship Center by calling **(949) 393-8662** to schedule an appointment.

Employees for both Westcliff University and Western State College of Law can receive counseling services through the Employee Assistance Program by calling **1-888-780-0855**.

Abuse of alcohol or drugs can lead to dependency and addiction, with serious consequences for personal health and overall quality of life. There are drug and alcohol counseling, treatment, and rehabilitation facilities available in our area where students and employees may seek advice and treatment. The psychologist/counselor may be able to refer you to one that meets your needs.

In addition to school provided resources, outside organizations may be contacted for help.
